DETAILED ACTION

Allowable Subject Matter

1. Claims 1-21 are allowed over the prior art of record. The following is an examiner's statement of reasons for allowance:

While the closest prior art of record disclose that chromium nitride and titanium nitride can be combined in such a way to form the general layer structure as exemplified by Applicant, the prior art does not teach or suggest the ratio of Cr/Ti as now required in presently amended independent claims 1 and 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
